The Springview split level home is an exciting addition to our range of homes built specifically as a split-level home for a block with an upward slope from the street. The home is easily adaptable to suit different façade options if the Metro is not your style.

The Lower Level has been designed in a way that can be adapted to suit live in parents or a home office situation or even a retreat for your children while they save up for their own home! While ample storage has been provided throughout the home don't forget about all that space under the house. It's a perfect spot to store all your household equipment or could even be used as a Cellar!

## Lower Level

The Upper Level has been designed to be an open plan style but still provide privacy so everyone can have some private time when needed. The front Lounge room exudes class & captures the views of the reserve & has its own private balcony & don't forget the fireplace!

The Kitchen is the gem of this home with the walkthrough style pantry that provides ample storage & has everything you would expect for a home of this quality. The open style family area leads onto an entertainers delight Al Fresco area with built-in kitchen & plenty of space for the extended family to enjoy.
